

# WEST NILE VIRUS WARNING

West Nile virus is present in this area.

West Nile virus is transmitted to humans by the bite of infected mosquitoes. This virus can make people sick.

Take these precautions:

- Apply insect repellent containing DEET, picaridin, or oil of lemon eucalyptus.
- Wear protective clothing (loose, light-colored long sleeve shirts and pants).
- Avoid this area between dusk and dawn when mosquitoes are most active.

If you are bitten by a mosquito in this area and develop flu-like symptoms within 14 days, see your doctor immediately.
